HOW TO MAKE PAYMENTS

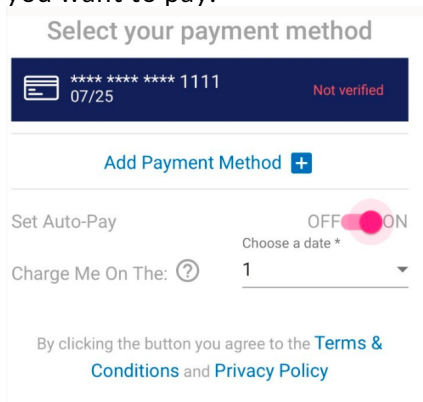

Select your payment method

1 On the payment page, you can view your current balance (which is uploaded directly by your property manager)

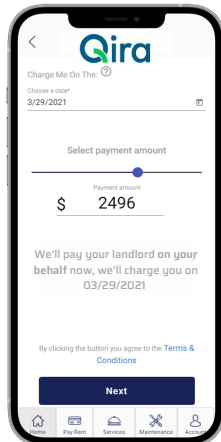

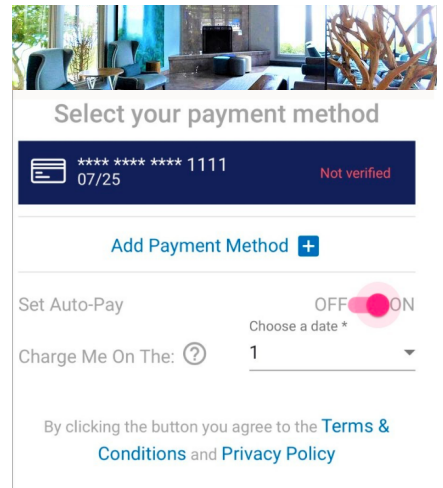

2 If you want to pay your full balance, do not click anything and continue scrolling down.
If you want to pay a custom amount (different than your balance), select "Pay Custom Amount" and enter the amount you want to pay.

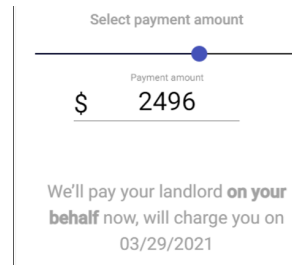

3 Scroll down, select the payment method you wish to use and enter the details. Remember that you have 3 options:

ACH (e-Check), Credit Card or Debit Card.

**4** The "Total Due" is the amount of your payment.

5 AUTOPAY OPTION:
To turn autopay on, toggle the "Activate auto payment" button. You have the option to select which day the autopay will run.

If you select to turn autopay on, your first payment will be made on the next date that you select. Autopay runs at approximately 11am ET. If you do not turn autopay on, you will be submitting a payment now.

If you toggle the "Custom Amount" option, autopay will charge the custom amount that you specify. If you do not toggle this option, autopay will charge your open balance on that day.
